

VIRONOX

EMPOWER YOUR IMMUNITY

Epigenetic line

Based on principles of epigenetics Vironox line was developed to maintain immunity and the body's recovery.

BRAIN FOG

For mental activity

Extracts of Artichoke leaves and Roseroot roots contribute to normal cognitive function.

For the nervous system

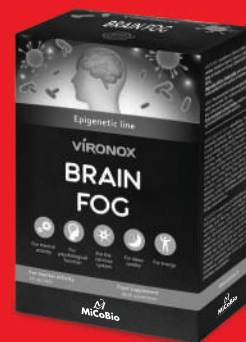

Niacin helps to reduce tiredness and fatigue. Vitamin B₆ contributes to normal functioning of the nervous system.

For psychological function

Niacin helps maintain normal psychological function.

NEW

EXPRESS RECOVERY+

For vitality and energy

Ginseng roots extract helps to maintain the body's normal vitality.

For the respiratory system

Extracts of common thyme, black elder and willow-leaved gum tree leaves help to maintain normal respiratory function.

For immunity

Extracts of common sage leaves, common thyme herbs and black elder fruits help to support normal immune system function.

For the nervous system and psychological function

Extracts of Siberian-ginseng and Roseroot roots help to support normal mental activity and cognitive function.

For muscles and bones

Willow-leaved gum tree leaves extract helps maintain normal muscle function and bone health.

VIRONOX GUARD

Lip and nose balm creates a protective layer and helps maintain the external immunity barrier. Interferon, hydrolysed collagen, lysozyme and essential oils have a synergistic effect and help form a protective barrier.

Interferon is an important signalling molecule in the body. Immune cells produce interferon when exposed to viruses, as it inhibits viral replication.

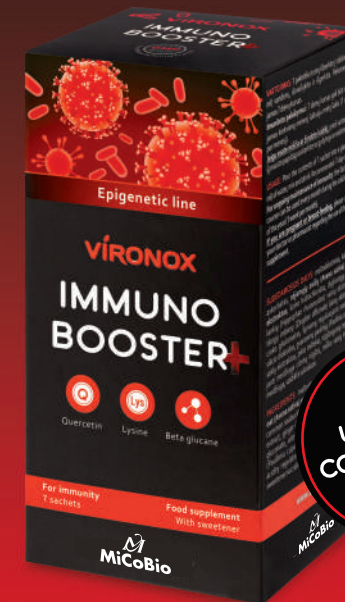

Approved by dermatologists.
